

# Long-Term Solution

***CrownSeal is a long-term solution designed to stop water intrusion, which is the major cause of chimney deterioration.***

## Protect Your Chimney From The Top Down

Water damaged or cracked chimney crowns can lead to costly chimney repairs. Fight back with CrownSeal—the flexible crown repair formulated to withstand the severe weather and thermal stress that cause cracks. Damaged crowns allow water to deteriorate your masonry and the chimney liner. Years of water intrusion and neglect lead to extensive chimney repairs.

## Prevent Costly Repairs

CrownSeal is a long-term solution to stop water intrusion, which is the major cause of chimney deterioration. When the crown fails, the entire chimney system is more susceptible to damage. A professionally installed CrownSeal application is guaranteed to protect your investment and save you money. The photo above shows a cracked, damaged crown which will allow water to seep into the chimney with every rain. Compare this to the chimney sealed with CrownSeal shown on the inside back panel.

### **CrownSeal and ChimneySaver A Powerful Combination**

Chimneys are highly exposed to the elements and, if left unprotected, are susceptible to deterioration. A complete chimney protection program should include repairing the crown with CrownSeal, as well as waterproofing the entire chimney with ChimneySaver Water Repellent. All flue tiles should have a chimney cap to further prevent water penetration. This combination is your best defense against major reconstruction.

### **GUARANTEED TO LAST**

- 10 Year Warranty
- Permanently Flexible
- Maintenance Free
- Natural Concrete/Mortar Appearance
- Environmentally Friendly

## **CrownSeal®**

### **TEN YEAR WARRANTY**

SaverSystems warrants that CrownSeal, when used to coat or repair masonry chimney crowns, will remain intact and in place for 10 years from the date of application to a residential chimney crown according to label instructions when properly applied by a professional contractor. This warranty does not cover spalling, abrading, faulty construction and/or other defects which might erode coated surfaces.

If CrownSeal fails to perform as specified, SaverSystems will furnish, as sole remedy, enough CrownSeal to correct the condition. This warranty does not include labor or cost of labor for the application of CrownSeal. SaverSystems shall not be liable for incidental or consequential damages resulting from any breach of this warranty and fitness for use. Some states do not allow the exclusion of incidental or consequential damages, so the above exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights which vary from state to state.
