

HomeSaver[®] Pro[™]

YOUR #1 CHOICE

The HomeSaver Pro protects your chimney from animal invasion.

Animals see an uncapped chimney as an open invitation to move in — unfortunately, they bring with them a variety of evils.

Birds and animals carry diseases such as rabies and histoplasmosis. Bird droppings combine with rain to create a terrible smell. And, once a squirrel or raccoon gets into your chimney, it may also enter your *home* where it can cause untold damage to furniture, drapes, and carpets. Animals nesting in your chimney are also an unnerving source of chatter and commotion. And, their nests can result in dangerous flue blockages.

Don't take chances — be safe with the HomeSaver Pro chimney cap.

HomeSaver Pro Round Cap, Stainless Steel

HomeSaver Pro Rectangular Cap Black Galvanized

HomeSaver Pro Round Cap Black Galvanized

LIFETIME WARRANTY On Workmanship and Materials
3-YEAR WARRANTY Against Rust-Through

The HomeSaver Pro saves you money on costly moisture damage repairs.

More chimney damage is caused by the lack of a chimney cap than any other source. Rain causes premature deterioration to the chimney interior and can damage metal fire-boxes and dampers. It can also erode flue tiles and mortar joints, causing them to crumble and leave dangerous cracks and blockages. Stop costly moisture damage with the HomeSaver Pro.

The HomeSaver Pro reduces the danger of roof fires caused by hot sparks. A chimney without a proper cap may allow airborne embers to ignite shingles, leaves, trees, or grass. Get maximum protection with the HomeSaver Pro.

The HomeSaver Pro Features:

- Lifetime warranty for 304-stainless steel.
- Lifetime warranty for galvanized black on workmanship and materials, 3 years on rust-through.
- Constructed of heavy-gauge steel and structurally designed for strength and durability.
